## ***Two Companies, One Vision: Your Sustainable Competitive Advantage***

***Harness a powerful combination*** of expertise in both sustainable enterprise strategy and stakeholder communications through the pairing of Eco-Nomics LLC and Steele Communications.

***Eco-Nomics*** helps companies to realize competitive advantage through sustainable business practices, including product life cycle management, resource productivity, business continuity, and supply chain stewardship.

***Steele*** helps market leaders leverage the tangible and intangible value of their sustainability performance through balanced reporting and strategic communications targeted toward both internal and external stakeholders.

***Let our collaborative vision*** help you develop a program that is firmly grounded in the principles of business value creation, tailored to your core competencies, and critically attuned to the language of your audiences.

***Contact us for a no-obligation telephone consultation:***
